

Product code:	20240158	Condition:	Used	Positive feedback:	0 % Positive feedback
Brand:	ABI	Category:	Short shunt compound DC	Return policy:	NO
Total:	1	Seller ID:	sshamzRCQ6	Guarantee:	NO
Price:		Seller store:		Fire Zone:	NEC505 Zone 22 * AEx o IIIA T6 Db

Short description: What is an ankle brachial index test? The ankle brachial index, or ABI, is a simple test that compares the blood pressure in the upper and lower limbs. Health care providers calculate ABI by dividing the blood pressure in an artery of the ankle by the blood pressure in an artery of the arm.

General data	Electrical data	Mechanical data
Serial number	Armature resistance	Cable gland size
Frame size	Armature inductance	Position of main cable entry
Cooling type	Base RPM	Paint color
Rotor weight	Efficiency class	Mechanical Bearing protection
Year made	Efficiency (%)	Temperature Bearing protection
Factory location	Rated Voltage	Temperature winding protection
Body Material	Rated power	shaft length
Mounting	Rated Speed	shaft diameter
Lifting Lugs	DC Armature Voltage	Shaft type
Electrical data	DC Armature Current	NDE bearing
Service factor	Input power	DE bearing
Rated Current	Rated torque	No load Noise (SPL 1 meter)
Locked Rotor Time (Hot)	Locked rotor torque	Environmental data
Locked Rotor Time (Cold)	Breakdown torque	Altitude ? ASL
Max safe speed(MSS)	Insulation class	Design Humidity
Detent torque	Mechanical data	Enclosure Protection
Phase winding resistance	Terminal box position	Operating Temperature
Phase winding inductance	Commutation	Maximum Case Temperature
Excitation Power	Bearing type	Humidity Range (%)
Excitation current	Temperature rise	Storage Temperature
Armature resistance		Ambient Temperature Range
